Experience

Auth0 · Seattle, WA · 2018-Present
UI/UX Designer
Product Designer
- Optimize the user experience of the Auth0 dashboard to enable administrators to manage and configure account information.
- Improve the workflow for managing user identities, including creating and provisioning users and configuring third party identity providers.
- Perform usability testing to ensure solutions meet the needs of highly technical users.
- Work with project managers to identify and prioritize product vision and roadmap.
- Worked with engineers and product managers to adapt identity provider configurations to accommodate upcoming technologies such as Apple's native Sign In with Apple feature.
- Designed the user flow for authorizing and authenticating input constrained devices such as smart home devices.
- Redesigned the homepage for Auth0's developer documentation.
- Contribute to Auth0's Cosmos Design System.
- Create site maps, user flows, wireframes, prototypes, and other design artifacts to provide user-centered solutions for developer tools.

Intel Corporation (via EdgeRock Technology Partners) · Hillsboro, OR · 2017
UI/UX Designer
- Generated designs that adhered to a new UI style guide to establish a consistent visual language for all Intel Developer Zone products.
- Developed sitemaps and wireframes for website theme migration.
- Collaborated with cross-functional teams to perform needs analysis and requirements gathering.

Brooks Library, Central Washington University · Ellensburg, WA · 2015–2017
User Experience Librarian
- Developed the UX strategy for the Brooks Library and established and promoted design guidelines, best practices, and standards and advocated for the value of user-centered design within the organization.
- Designed and conducted quantitative and qualitative user research and usability tests to identify user needs.
- Managed a cross-functional team to implement user-centered digital experiences.

Education

Masters of Library and Information Science · Dominican University
Bachelor of Arts, Telecommunications · Michigan State University

Professional Service

Computer Human Interaction Forum of Oregon (CHIFOO) · Portland, OR · 2018-Present
Communications Director
- Assist in the development of an educational speaker series on various topics relating to computer-human interaction.
- Promote monthly events through social media and newsletters.
